John Butler took over as President of the Roanoke Chamber of Commerce tonight saying he will dedicate this

(TAKE FILM)

year to promoting harmonious relations between valley governments. Butler says Industrial Development will also remain high on his priority list for the Chamber. Retiring President T.T. ~~XXXX~~ Moore made a strong statement for Valley Unification. Moore also emphasized the need to develop tourism and industry. He says a Civic Center is still the greatest ~~XXXXXXXXXX~~ single need of Roanoke. Moore hints a Civic Center Committee of Businessmen may report soon on how a Center can become reality.

Featured speaker for the ~~XXXX~~ Chamber Annual Dinner which observed the 75th Anniversary of of the group, was Dr. Louis T. Rader of the General Electric Company. He took as his subject "Automation and Education". Dr. Rader defines Automation as an increase in efficiency in anything we do. He says workers are displaced by automation but it doesn't create unemployment. Workers are displaced but can be retrained, he says, and since human resources are our most important form of Capital Improvement, we must continue to put real money in our Educational system.
