enlarge the incinerator to Pyro Incinerator and Supply Company of Mineola, New York. Of course, the actual awarding of the bid is subject to Council approval. The New York firm bid slightly under 160-thousand dollars. However, the old incinerator cannot possibly be renovated and enlarged before mid-April or May of next year,--which seemingly adds more of a load on the East Gate Land Fill. Members of the committee cited today that even when the old incinerator is completed, it will not take care of the city's garbage problem. members of the committee admitted a new incinerator will have to be built, but set no date.
