

(ROLL FILM)

The Town of Vinton's new Well will be tested tomorrow to see how much water it will produce.

(TAKE FILM)

And if the well comes up to the hopes of town officials, another well will be drilled nearby and the two, in theory, would produce <sup>all</sup> ~~half~~ the town's water needs. The Town got into the Well Drilling Business after Roanoke City Council ~~xxxx~~ ~~it~~ decided to up the water rates for customers outside the city limits. The Town hired the firm of Wiley and Wilson from Lynchburg to make a water study for the Town's present and future needs. Dr. Byron Cooper of the Virginia Tech Geology Department will be on hand to check the operation of the well when it is tested tomorrow.
