Appropriations Chairman Howard H. Adams presented the one million, 400-thousand dollar budget to the House of Delegates today. Terming it fundamentally sound, he bespoke its favorable consideration. In outlining the program, Adams said it "assumes the passage of the income tax withholding plan." The budget calls for 573-million dollars in general fund money -- almost 15 per cent more than the one for 1960-62. The budget is almost 5 million dollars less than the originally proposed by former Governor Almond.
